

## Mazdoor Campaign

Our cities and homes are sustained by the hard-working labor class. Yet, they are treated callously by the lack of dignity shown to them by paying low salaries that provide no benefits. These are people commonly referred to by their designations such as the kachrawala, rickshawala and other names relevant to their professions.

We sensed their lives are difficult on ordinary days, but the covid crisis brought unprecedented challenges. A group of like-minded people like us, as we moved around the city to provide relief supplies witnessed the helplessness caused as their livelihoods were destroyed. Being disturbed seeing this around us, and wanting to help led to an initiative called Mazdoor.

The Mazdoor campaign is a long-term initiative to deeply connect, identify needs and create opportunities with safety-nets for the hard-working labor class. We reached out to people from various professions to learn about their personal lives. The challenges they faced prior the crisis, and the greater ones they face post the covid crisis. Let's hear about Sanatana Kaka, who is a mechanic and how his life has been and what the future looks like for him now.
